Grade Six Music Theory - The Rules of Harmony. These rules of harmony need to be learnt. You need to use them when you are harmonizing a melody, creating a bass line with figured bass, or realizing a figured bass. Click on each rule for more details about it. The Rules. 1a. NO consecutive 5ths 1b. NO consecutive octaves 1c.

Grade Six Music Theory - The Rules of Harmony

In music, harmony is the process by which the composition of individual sounds, or superpositions of sounds, is analysed by hearing. Usually, this means simultaneously occurring frequencies, pitches, or chords. Harmony is a perceptual property of music, and along with melody, one of the building blocks of Western music. Its perception is based on consonance, a concept whose definition has changed various times throughout Western music. In a physiological approach, consonance is a ...

Harmony - Wikipedia

Negative Harmony is a musical concept that was first thought of by Swiss composer and theorist Ernst Levy in 1985 in his book A Theory of Harmony, but never really gained a lot of traction until musician Jacob Collier repopularized it in 2017. It is based on the inversion of chords and notes around an axis.
