3. Well-defined procedures protect you from becoming a micromanager. By using well-written, explicit and uncomplicated procedures, you, as a company manager, can run different operations without always worrying about the working process. While following fixed guidelines, the team will do their job without you breathing down their neck.

### **What are procedures and why you need them? - BlogIn**

A procedure is the recipe for a cake, giving you the exact ingredients and steps to make the cake. From the example, you can see that you cannot run a successful bakery (or bake cakes, for that matter!) without policies, processes and procedures. All three can help determine the most efficient way to complete a task, give your employees ...
