Menial tasks, when they get very stressed during busy times at work, start eating junk food and abandoning their exercise regimes. The result is they sleep poorly and feel even worse ...

Overwhelmed at work? Six tips on how to beat stress ...

Menial tasks, such as photocopying, stamping letters, or filing work, are often duties of clerical or secretarial staff. Even if you have been doing these tasks for years, training or requesting that someone else takes on this duty (where appropriate) will save you much time in the long run (although you may have to spend some time to monitor and teach someone how to do it at first).

When we feel busy, we feel like we're winning at life—like we're doing something right and maximizing our productivity. But our insistence on staying busy can have damaging effects on our mental well-being: more stress, exhaustion, burnout, and an inability to focus on the present. I've resolved to make 2015 the year I stop feeling busy.

Careers - Working Solutions

But people have always wasted time at work: from gossiping round the fabled water cooler to personal phone calls to simply staring out of the window. The big difference now is the internet: had the combined brains of the world's scientists been put to work devising a means of wasting time at work they couldn't have bettered the internet.
