China Invents The Digital Totalitarian

Totalitarianism is a concept for a form of government or political system that prohibits opposition parties, restricts individual opposition to the state and its claims, and exercises an extremely high degree of control over public and private life. It is regarded as the most extreme and complete form of authoritarianism. In totalitarian states, political power has often been held by autocrats ...

“Quite frankly there is enough dirt on USA that it can easily go toe to toe with China on the violence scale.” There really, really isn't. You don't even know jack shit about the Uyghur camps AND China has extensive censorship by your own admission BUT China promises everything is fine so everything must be fine then. Cool. Makes sense.

Surveillance is the monitoring of behavior, activities, or information for the purpose of information gathering, influencing, managing or directing. This can include observation from a distance by means of electronic equipment, such as closed-circuit television (CCTV), or interception of electronically transmitted information, such as Internet traffic.

Surveillance - Wikipedia

Democrats Use Capitol Incident To Suppress Political Dissent. When watching this Jimmy Dore Show about the Capitol incident one can clearly see that some of the police were reluctant to intervene against the surprise visitors. Some even took selfies with them. The police may have been overwhelmed and decided that more fighting would have been counterproductive.
