Cities Of The Global South

The Global South is an emerging term, used by the World Bank and other organizations, identifying countries with one side of the underlying global North-South divide, the other side being the countries of the Global North. As such the term does not inherently refer to a geographical south; for example, most of the Global South is actually within the Northern Hemisphere.

Global South - Wikipedia

The global south is also where the effects of climate change are being felt most intensely, leading to increased instances of disasters caused by natural hazard or extreme weather events like ...

The Reader incorporates both early and emerging debates about the diverse trajectories of urbanization processes in the context of the restructured global alignments in the last three decades. Emphasizing the historical legacies of colonialism, the Reader recognizes ...

Cities of the Global South Reader (Routledge Urban Reader ...

This article considers the conundrums entailed in maintaining the notions of “city” and “Global South” in an era where urbanization is no longer epitomized by the city form and where the Global South as a distinctive geopolitical entity has largely been fractured into a multiplicity of domains and histories. Nevertheless, the compositions of contemporary urbanization processes engineer ...

Cities of the Global South | Annual Review of Sociology

The renaissance in urban theory draws directly from a fresh focus on the neglected realities of cities beyond the west and embraces the global south as the epicentre of urbanism. This Handbook engages the complex ways in which cities of the global south and the global north are rapidly shifting, the imperative for multiple genealogies of knowledge production, as well as a diversity of ...

The Routledge Handbook on Cities of the Global South - 1st ...

This review examines disparities in access to urban green space (UGS) based on socioeconomic status (SES) and race-ethnicity in Global South cities. It was motivated by documented human health and ecosystem services benefits of UGS in Global South countries and UGS planning barriers in rapidly urbanizing cities. Additionally, another review of Global North UGS studies uncovered that high-SES ...

What Is The Global South? - WorldAtlas

The global south is entering an 'Urban Age' where, for the first time in history, more people will be living in cities than in the countryside. The logics of this prediction have a dominant framing - rapid urbanization, uncontrolled migration, resource depletion, severe fuel shortages and the breakdown of law and order. We are told that we must be prepared. The solution is simple, they say ...

Mega-Urbanization in the Global South: Fast cities and new ...

Planning in the global South refers to discourse that unpacks the covert everyday events of cities and people in often contested and complicated urban realities.

Planning in the Global South

The definition of Global South and Global North are taken from the 2010-15 Wikimedia strategic plan, with some reclassifications by Wikimedia Foundation staff over time (such as moving Ukraine to the Global South).

List of countries by regional classification - Meta

Peripheral urbanization is a widespread process throughout the global south, but it shapes cities unevenly. Although similar processes of urbanization can be identified in Istanbul, Santiago, and São Paulo, their histories are quite different, as are their present configurations and their tendencies of transformation.

Peripheral urbanization: Autoconstruction, transversal ...

Cities in the global south face three fundamental energy challenges: the urgent need to increase access to clean, affordable, and reliable energy; how to meet increasing electricity demand while addressing inadequate supply and system inefficiencies; and the imperative to chart a new model of development that slows the growth of carbon emissions and is not fossil fuel-intensive.
