### Measurements

### And Research

Methods In  
Behavioural  
Sciences

. Research process: 1) ask research question(s) 2) develop hypotheses. 3) collect the data. 4) analyze the data. 5) evaluate the hypotheses .

Asking research questions. Does gun control reduce violent crime? If so, how much? What types of people are most likely to develop breast cancer?

Measurements

**Scales of**

**Measurement**

The research methods you use depend on the type of data you need to answer your research question. If you want to measure something or test a hypothesis, use quantitative methods. If you want to explore ideas, thoughts and meanings, use qualitative methods. If you want to analyze a large amount of readily-
